Web programming lec1 discussion

Anwar Akram Ghulam / Information Eng. / Morning

1. What are the four tags required in every HTML page?

<!DOCTYPE html> , <html> , <head> , <body>

2. What is HTML emojis tags and write simple program to disply some emojis

For example 🌟 star emoji , 😊 smiling face emoji

Simple program

<!DOCTYPE html>

<head>

   <title>Emoji Example</title>

</head>

<body>

  <h1> Emoji Example</h1>

   <p>😊 🌟</p>

</body>

</html>

3. Make a personal web. Type a few paragraphs to introduce yourself to the world and use the HTML

tags you've learned in this Experiment to make them into a web page.

```
<!DOCTYPE html>

<head>

   <title>My personal website</title>

</head>

<body>

   <h1>Hello, there</h1>

   <p> Welcome y'all . my name is Anwar Nawrozi and I would like to share a little
bit about myself  , I'm a computer engineer (in about 8 months from now lol) and
an aspiring data scientist who have vast interest in data and playing chess. </p>

   <p>this website might be somewhere I could share some of the information
and knowledge I gain throughout my learning time from a hobbies data scientist
to a professional (maybe one day , who knows)</p>

   <p>Thank you for your interest</p>

</body>

</html>
```
